

Digitisation & Document Management

CUSTOMER CHALLENGES

Organisations today are faced with a near-constant influx of paper and digital documents that threaten employee productivity. With the exponential growth of data that arrives in various formats and from multiple sources, organisations must find new and innovative ways to take the complexity out of information capture.

Find the right high-speed business document scanner for your work. Kodak Alaris manufactures scanners with intelligent automated features and class-leading software. Document scanners from Kodak Alaris are the innovative choice.

Kodak Capture Pro helps ensure that business processes run smoothly, reducing costs and enabling innovation that improves customer experience. It is the key to overcoming challenges related to secure and reliable capture. And, by letting you share information across your organisation, it enables knowledge sharing and collaboration throughout your enterprise.

Kodak alaris

Kodak Capture Pro integrates with leading ECM Workflow Solutions:

Empower your decision makers with efficient, streamlined business processes that eliminate information bottlenecks. Access to accurate information at the right time is critical to making the right business decisions. Without the right data, business process delays cause bottlenecks that take productivity, and profitability, to a halt. Organisations need capture technology that delivers results without getting in the way of normal business processes. Technology that works the way you need it to, quickly converting batches of paper documents into information you can use.

HEALTHCARE – Patient records, claim processing, order entry (labs etc.), clinical data repositories, Pharmacy prescriptions.

FINANCE DEPARTMENTS – Invoices, bills, payment records

EDUCATION – Student records, financial aid, student housing, grants/endowments.

LEGAL – Legal briefs, discovery documents, wills, estates, trusts, client records.

GOVERNMENT – Historical records, parking management, compliance documents etc.

HR – Employee records, contract management, privacy regulations, expense claims, timesheets, resumé's

Integration is Everything.

In today's connected world, integration and connectivity is everything. Having a solution that can be integrated into multiple business systems isn't just a dream, it's key to driving productivity. That's why Capture Pro has integration into some of the leading document management, ECM and workflow solutions on the market. The process of digital transformation does not necessarily have an end goal, rather a constant state of opportunity that businesses need to capitalise on.

Enterprise-level Automation that Scales with you

For departments that handle paper every day, Capture Pro is easy to use and easy to afford. Regardless of your size, Capture Pro quickly transforms the data in your documents into digital information that goes to work for you. Eliminate repetitive manual work without the limitations of scanning license click counts that can slow down your processing power. An easy to implement, subscription.

Additional Benefits

- **Cost Savings:** Help eliminate the bottlenecks and inefficiencies of document preparation and operator intervention during scanning
- **Customer Satisfaction:** Streamlined, efficient business processes empower your decision makers and increase customer satisfaction
- **Increased Productivity:** Superior imaging quality and features that reduce manual data entry and error correction downstream
- **Fast ROI:** The ability to leverage existing technology and investments while building new information capture solutions
